

ASTEME MATH & STEM CENTER

Advancement of Science, Technology, & Engineering in Math Education

MATH FOR THE MIND, BODY & SPIRIT™

8-Week Tuesday - Saturday Sessions
February 4th – March 28th

8-Week Monday Session
February 24th – April 20th
(No classes week of April 6th)

Join us as we continue our amazing fun filled journey exploring math ideas in the Science, Technology & Engineering fields with **BRAND NEW ACTIVITIES**. In our upcoming spring session, we will be looking at how math is used in Chemistry, Biology, Physics, Psychology, & Geology! The students will perform Harry Potter chemistry experiments, design instant temporary tattoos with Prinker, explore how memory works and how we best learn, program Arduino robots, train dogs, engineer rocket ships, and much, much more!

ASTEME is offering an incredible **Astronomy class on Thursdays for students 4th-10th grade**. We will explore the foundations of Astronomy from the Big Bang Theory and the Universe to time travel and quantum physics. This hands-on, interactive class is a unique opportunity for your child(ren) to learn advanced college level ideas taught in a way that will make sense.

Our **Friday ASTEME session is appropriate for students K-11th Grade** as we have developed a specialized curriculum for the older students who attend this session.

ASTEME supports access and equity for women in the STEM fields. We are proud to offer an **ASTEME all girls session** on Wednesdays from 4:00PM-6:00PM, and Saturdays from 12:15PM – 2:15PM.

ASTEME is also offering two **computer coding classes** on Wednesdays from 4:00PM-6:00PM. The beginning class will cover the fundamentals of designing, writing and debugging computer code using Scratch. The advanced class will focus on creating iOS apps using Xcode and SWIFT.

Weekly ASTEME Sessions

Monday, Tuesday, Thursday & Friday 4:00PM – 6:00PM

Weekly ASTEME for girls

Wednesday 4:00PM – 6:00PM & Saturdays 12:15PM-2:15PM

Weekly Computer Coding

Wednesday Beginner 4:00PM – 6:00PM

Wednesday Advanced Coding (iOS Apps) 4:00PM – 6:00PM

Location: ASTEME Learning Center, 11672 Gateway Blvd., West L.A., CA 90064
